

EXECUTIVE BIOGRAPHY

Dogu Narin

**VP of Product Management
Versa Networks**

Dogu is a seasoned product management leader with 20+ years of experience with various technology and product management leadership roles. In Versa, Dogu is responsible for Versa's product portfolio including Versa Secure SD-WAN, Titan, Versa Secure SD-LAN and SASE offerings, as well as software and hardware platforms.

Prior to Versa, Dogu served as the overall product leader for various areas for Juniper Networks; lastly establishing and running the cloud domain with NFV, vCPE/uCPE and SD-WAN products, and prior to that for Data Center, Routing Services, Application and Subscription Aware Services for wireline and wireless technologies and products. His background also includes Bay/Nortel Networks and several other technology companies.
