

MODERATOR BIOGRAPHY

Sarabit Gosal

Senior Director at Intel Network and Edge Group

Sab Gosal is the Segment Director for Enterprise and Cloud Networking, bringing over 25 years of experience working in the Communications and Security industry. Prior to Intel, he was the Chief Executive Officer of Sensory Networks, a high-growth company that developed innovative deep packet inspection software technology that Intel acquired in late 2013.

In earlier years, Mr. Gosal served as Vice President of Marketing at Verilink Corporation, a publicly traded leading provider of broadband access solutions. Sab has also held senior product management roles at companies that include Cisco Systems, StrataCom and Fujitsu. Mr Gosal holds a Bachelors degree in Electronic Engineering from the University of North Wales, Bangor, UK.
