

Executive biography

Jeff Durst

Sr Product Manager

Dedicated Computing

Jeff Durst is a Senior Product Manager, Healthcare, Life Sciences & Industrial at Dedicated Computing. He joined the company in 2011. Durst is responsible for ensuring that the product roadmap aligns with the company's vision, as well as the conversion of customer requirements into the architecture and design of the solutions for his responsible markets. He brings more than 30 years of technical and business leadership experience within several embedded computing markets, including healthcare, communications, military, aerospace, industrial and scientific computing.

Prior to joining Dedicated Computing, Durst performed various systems engineering and board-level development, project and product management as well as solution architecting activities for Emerson Network Power (formerly Artesyn Technologies). He also directed a product roadmap team as part of its embedded computing product strategy. Durst is a graduate of Herzing University where he earned an MBA with a concentration in technology management. He also holds a BS degree in technology management and an AS degree in electronics engineering technology.
