

Executive biography

[Dr. Nima Schei](#)

Founder and CEO

Hummingbirds.ai

Dr. Nima Schei is Founder and CEO of Hummingbirds AI, creator of Guacamole, the award-winning edge-based authentication solution. A medical doctor and computational neuroscientist by training, Dr. Schei pioneered emotion-based AI decision systems and has developed brain-inspired technologies with over 400 industrial applications.

His innovations include the first continuous facial authentication system based on neurological principles, now accelerated by Intel technology.

Dr. Schei founded the Miami AI Club, serves as an AI advisor for the National Applied AI Consortium, and contributes to the Future Investment Initiative Coalition on AI. His multidisciplinary approach combines neuroscience, medical expertise, and computational innovation to create AI solutions that solve critical security challenges while respecting privacy as a fundamental right.
